Computer
Grade 2

Tuesday, Nov 15

Topic / Unit: Color Spinners

Objectives

The students will use an online spinner to create a probability table from which they will create a graph.

Resources

Tool Factory Spreadsheet

Procedures

1. As a class, open the online spinner and modify the spinner with different amount sizes.
2. Students will predict which color will appear the most.
3. Have the students make tally marks for each of the 50 spins using an online spinner.
4. Graph the results.
5. Write about the graph results.

Notes

II.5.a readable font
II.5.b space bar
II.5.c enter key
II.5.g spell check
II.5.h name document
II.5.i save
II.6 File Management
II.7 Drawing and painting tools
II.11 Word processing skills
IV.2 Compose at the keyboard
V.10 Organize info in spreadsheet
